

## YOUR MEDICAL HISTORY

- At every appointment your medical history is checked and updated as necessary and confirmed by your signature.
- Obviously at this time we are trying to avoid all sharing pens etc. Therefore your medical history will only be checked verbally.
- However, if it has changed significantly since your last visit we would ask you to download a new form (which is at the end of this page) fill it in and bring to your appointment.
- In any case, if you are on any medication, please bring an up-to-date list so it can be checked against our existing records.

Thank you for your help in this matter.
